LIKE A MARVEL OF NATURE!

Since time immemorial, nature has been a force of inspiration for mankind to create, innovate, imagine, and invent a better and more beautiful way of living! Presenting Galaxy series by **latte ceramiche** that celebrates nature and its greatness in a mammoth size and style. Containing enchanting and spirited designs with a feast of shades, Galaxy Series is a sintered stone collection that implicates the natural grace and grandeur of marble in bigger size to adorn every inch of your ambiance. From sensuous countertops to impressive walls or giant slabs for the floor, Galaxy Series by Vetican is a reminder of nature's pristine beauty and vibrancy at every step.

POSITIVE OUTLOOK TO YOUR SPACE

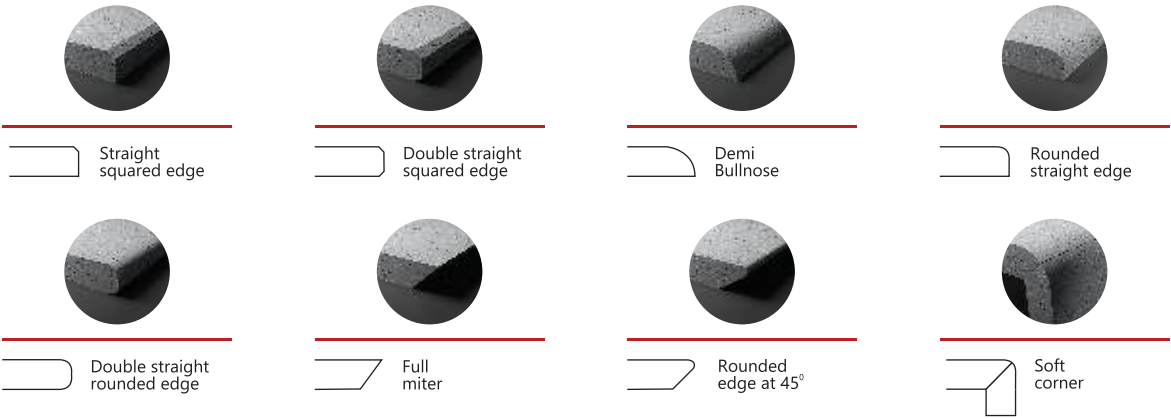

LET YOUR WORLD HAVE NEW VIBRANCY, NEW VIVACITY.

Thanks to ultra cool designs and enchanting patterns by Galaxy, design, and creativity have a new manifestation.

With elements and shades inspired by nature, it gives your modern space the vibes and energy that are pure and earthy.

HAVE AN EDGE OF ELEGANCE

Made with advanced technology, the sintered stone collection from Galaxy is a pure joy as its world-class production process ensures that the natural elegance of nature keeps beautifying your spaces for the longest time.

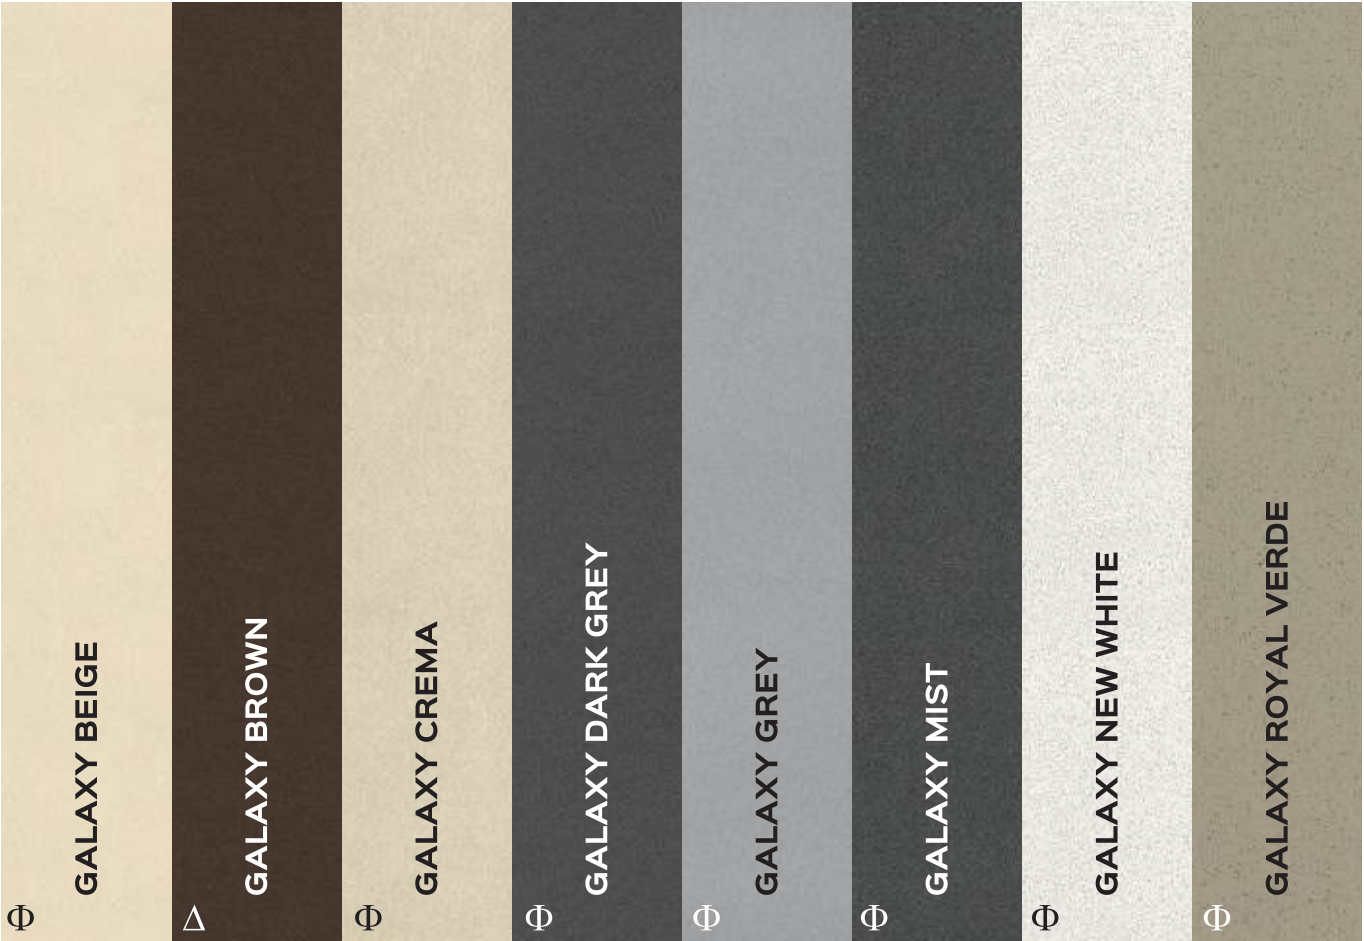

APPLICATION AREA

From walls to floors to ascents and furniture, Galaxy adorns your space as you desire. Designed to perfectly suit all your requirements for a lavish space that uplifts and defines your ambiance to give it a greater look. With a promising quality and wide range designs, we offer the best designs. We believe in quality & best services!

RAISING A IMMEDIATE TILE ONTO A BENCH

✗ INCORRECT

✓ CORRECT

HANDLING IMMEDIATE TILE FOR WALL

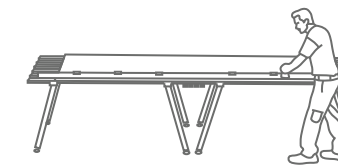

✗ INCORRECT

✓ CORRECT

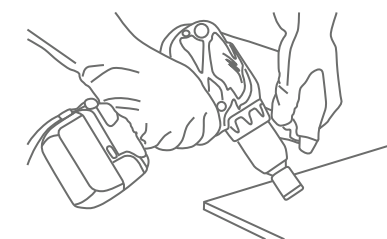

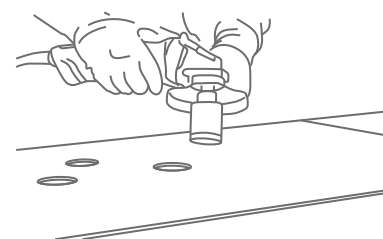

WORKING WITH THE VARIOUS VERSIONS OF TILES

CUTTING WITH DIAMOND DISCS

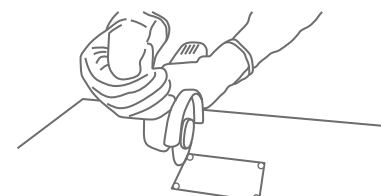

Our products can be cut using diamond discs fitted onto the hand-held electrical grinding machine. The speed of Disc rotation must be high (>10000 RPM) and should have a low feed rate (< 1 m/min). It may be required to cool the disc with water. Recommended discs are the thin types generally used for cutting porcelain stoneware. The surface should be kept on a FLAT base while cutting without any gap underneath

DRILLING

You can use cutting discs fitted to battery-operated screwdrivers or angle grinders, electrical drills as an alternative.

INTERNAL CUT / L-SHAPED CUT

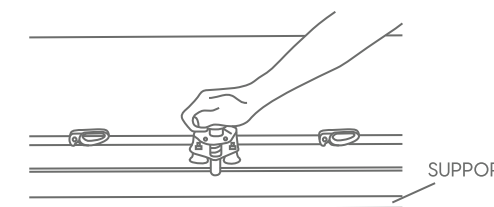

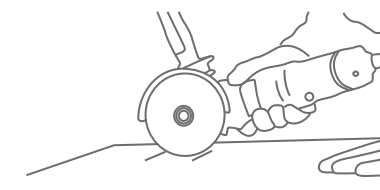

To get internal and L-shaped corners & to reduce the risk of breakage, round off the vertex of the internal corner using bits with a radius of at least 5mm. Then cut with diamond discs, be cautious to stop moving the cutting tool forward. To drill and cut using diamond discs, follow the instructions provided above.

When using these tools:

- Cool the point being drilled with water
- Don't put too much pressure and bear in mind the resistance of the type of laminated stoneware you are working on
- If you are using tungsten bits, start drilling at a low speed
- If you are using drills or screwdrivers, do not select hammering mode

EDGE-FINISHING

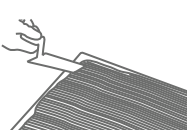

INSTRUCTIONS FOR MANUAL INSTALLATION

SINGLE LAYER METHOD

DOUBLE-LAYER METHOD

COMPRESSING THE TILE

IMPORTANT

All cutout corners must have a minimum diameter of 1/4".Never leave 90° angles.We recommend radiuses of more than 1/4" when the kitchen the design allows as it makes the countertop firmer.

✗ INCORRECT

CLEANING & MAINTENCE

Our products are non porous (due to their high quality raw materials, stringent production parameters and state of the art technology), hence any dust or deposited waste cannot penetrate the surface.

For most cases only a damp cloth is sufficient for cleaning.

Regular cleaning highlights the aesthetic features of the surface and gives it exceptional shine.

For highly aggressive cleaning caused by some common food and substances follow the table below.

TYPE OF STAIN	CHEMICAL PRODUCT	EXAMPLE
Grease	Alkaline - Solvent	Detergent
Oil	Solvent	Ammonia, Backing Soda
Ink	Oxidant - Solvent	Alcohol, Liquid Bleach, Nail Paint Remover
Rust	Acid	Hydrochloric Acid, Vinegar, Red Harpic
Lime	Acid	Descaling Reagent, Hydro Chloric Acid
Cement	Acid	Hydro Chloric Acid
Wine	Alkaline	Ammonia, Liquid Bleach
Coffee	Alkaline - Solvent	Ammonia, Liquid Bleach
Rubber	Solvent	Alcohol, Thinner
Plaster	Acid	Hydro Chloric Acid
Candle Wax	Solvent	Alcohol, Thinner
Iodine	Oxidant	Liquid Bleach
Blood	Oxidant	Liquid Bleach
Ice Cream	Alkaline	Liquid Bleach

Note: It is recommended that any kind of stain needs to get clean immediately / as soon as possible.
